

METALWORKS™ C-PLANK

Inspiring Great Spaces™

Armstrong® CEILING SOLUTIONS

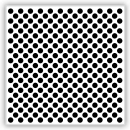

C-PLANK SERIES

- C-plank system allows for concealed monolithic visual in large open space or corridors.
- This ceiling system combines four widths of strips panels which are distinguished from it's closed smooth appearance with distinct V-shaped grooves when installed.
- C15 systems panels can be fixed to a universal carrier for three widths: 100mm 150mm and 200mm, all the same or mixed, or C30 systems with 300mm width for a wide linear dramatic visual.
- The panels are joined together using a panel splice whilst the carriers use the standard carrier connector.
- The finishing offers a smooth and clean linear visual which is suitable for corridors and large open plan area.
